

INDEX

A

Abandon catch basin, valve chamber, manhole or inlet	2-02.3(4)
Abandon and fill, and plug pipe	2-02.3(5)
Abbreviations, associations and miscellaneous	1-01.2(1)
Abbreviations, items of work and units of measurement	1-01.2(2)
Abbreviations, standard - see Standard Plan No. 002	
Abbreviations, standard symbols - see Standard Plan No. 003	
Acceptance - see "Completion dates" and "Final inspection"	
Access to private property during construction	1-07.24
Access to work (inspection)	1-05.6
Addenda	1-02.6
Adjusting utility and similar structure casting to grade	7-20
Admixtures for Portland cement concrete.....	9-23
Aggregates	9-03
Air release/ air vacuum valves- see "Water Valves"	
Air relief valve – see "Irrigation valves"	
Alley, blocking of – see "Notifications relative to contractor's activities"	
Alley return – see "Concrete driveway"	
Aluminum pipe in contact with portland cement, treatment for	7-16.3(3)
Amendments and mulches, landscaping	9-14.4
American-made material requirements - see section 1-06.5 of the project manual	
Anchor bolts	
grout for	6-02.3(20), 9-04.3(2)B
material requirements	9-06.5(4)
placed in concrete structure	6-02.3(18)
placed in steel structure	6-03.3(35)
poles and pedestals, lighting and signal	9-33.1(2)
Anti-stripping additive, see "Hot mix asphalt"	
Appeals (protest of an intended award of contract)	1-03.7
Approval of	
materials	1-05.6, 1-06.2
source of materials	1-06.1
"Approved equal, or"	1-06.1
As-built drawings, see "Submittals"	
Asphalt concrete - see "Hot mix asphalt"	
Asphalt treated base (ATB)	4-06
Assignment	1-08.2
Associations and miscellaneous	1-01.2(1)
ATB (asphalt treated base)	4-06
Audits of contractor records	1-09.12
Authority of contractor's personnel	1-05.13
Authority of assistants and electrical safety observer	1-05.2
Authority of engineer	1-05.1
Award and execution of contract	1-03

B

Backfill types	
CDF, pipe bedding & trench backfill	7-17, 2-10
mineral aggregates	9-03
selected material	2-10
Backfilling construction	
flow control system	7-16.3(1)
irrigation system	8-03.3(11)
sewer and drainage structures	7-05.3
structure excavation	2-04
trench, miscellaneous pipe connection	7-08.3(1)
trench, sewer and storm drain	7-17
trench, side sewer	7-18
trench, water main	7-11
Backflow prevention inspection notice – see "Notifications relative to contractor's activities"	
Backflow prevention assemblies	9-15.9
Backflow prevention requirement	
irrigation	8-03.3(1)
water main.....	7-11.3(12)G
Back guy assembly	8-32.3(3), 9-33.8
Ballasting and crushed surfacing	4-04
Ballasts, electrical	
luminaires	9-31.1
overhead interior illuminated signs	9-32.7
Bark mulch	9-14.4(3)
Barricades	
construction under traffic	1-07.23(1)

Proposed 2014 edition City of Seattle Standard Specifications For Road, Bridge, and Municipal Construction

pedestrian control and protection	1-07.23(2)
traffic control plans	1-10.2(5)
Barrier, concrete	6-10
Base	
asphalt treated	4-06
ballasting and crushed surfacing	4-04
manholes	7-05.3(1)E
Beam guardrail	
construction	8-11
non-weathering steel	9-16.3
weathering steel	9-16.8
Bearing pad, elastomeric	9-35
Bearing test, 3 edge - for concrete pipe	9-05.1(2)A
Bearing value	
falsework piling	6-02.3(17)E
piles, determination of	6-05.3(12)
Bearings, bridge	6-02.3(19)
Bedding for pipe	
sewer and drainage	7-17.3(1)B
water main	7-11.3
Beginning work (notice to proceed)	1-08.4
Benches	8-02.3(20), 9-14.13
Bending reinforcing steel	6-02.3(24)B, 9-07.1(2)
Bid(s)	
appeals.....	1-03.7
documents, where to obtain	1-02.2
consideration of	1-03.1
form and style of	1-02.5
guaranty	1-02.7
irregular	1-02.13
modification or withdrawal	1-02.10
public opening	1-02.12
procedures and conditions	1-02
return of guaranty	1-03.6
submittal	1-02.9
tabulation	1-03.1(2)
withdrawal or modification	1-02.10
Bidder	
disqualifications	1-02.14
qualifications	1-02.1
Bituminous materials	9-02
Bituminous surface treatment	5-02
Block traffic curb	8-07, 9-18.3
Blocking alley, street, sidewalk – construction notification requirement	1-07.28
Blowoff assembly (water main)	7-11.3(14), 9-30.2(10)
Bollards	8-02.3(19), 9-14.12
Bolt holes -see "Holes"	
Bolted connections	
falsework & formwork, timber	6-02.3(17)J
preparation for steel structures	6-03.3(27)G
steel structures	6-03.3(33)
Bond	
bid guaranty	1-02.7
contract bond	1-03.4
Bonding and grounding	
illumination & electrical	8-30.3(7)
traffic signal system	8-31.3(10)
Borrow and borrow sites	2-10
Borrow, gravel	9-03.14
Bracket arm	8-32.3(5), 9-33.2(9)
Bridge approach slab, reinforced concrete	5-05.3(19)
Bridge downspouts	7-08.3(9)
Bridge drains	7-05.3(4)
Bridge railings	6-06
Bridge under construction, load restrictions	6-01.6
Bus shelter footing	8-14.3(9)
Buttons, traffic	8-08, 9-21
"Buy American" requirements - see section 1-06.5 of the project manual	

C

Cable outlets on poles	9-33.2(5)
Calcium chloride in concrete admixtures	9-23.6
Calcium chloride in concrete pavement	5-05.2
Castings	
adjustment in pavement	7-20
sewer and drainage	7-20, 9-12.8
survey monuments	9-22

Proposed 2014 edition City of Seattle Standard Specifications For Road, Bridge, and Municipal Construction

water main	9-30.3(12)H
Catch basins	7-05.3(2), 9-12.8
CCTV.....	7-17.3(4)I
CDF – see "Controlled density fill"	
Cement	
admixtures	9-23
CDF – see "Controlled density fill"	
classification of concrete for pavements	5-05.3(1)
classification of concrete for structures	6-02.3(1)
portland cement	9-01
slurry, abandon and fill pipe	2-02.3(5)A, 9-05.15
slurry, annular space between pipes	7-17, 9-05.15
Cement concrete approaches	5-05.3(18)
Cement concrete in contact with aluminum pipe, treatment of	7-16.3
Cement concrete pavement - see "Pavement, cement concrete"	
Cement concrete structural – see "Concrete structures"	
Cement concrete sidewalks	8-14
Cement slurry for abandoning pipe and filling annular space between pipes – see "Cement"	
Chain link fence and wire fence	8-12, 9-16
Changed conditions – see "Differing site conditions"	
Changes, equitable adjustment for	1-09.4
Change orders	1-04.4
Channel and ditch excavation – see ditch and channel excavation	
Chemical spill	
notification requirement	1-07.28
prevention and control plan.....	1-07.5(5)
water quality	1-07.5(2)
Chloride	
in concrete admixtures	9-23.6
in prestressed concrete	9-19.1
in structural concrete	6-02.3(2)A
in structural grout	6-02.3(26)G
in water for concrete	9-25.1
ion content in precast prestressed concrete	9-23.7
Claims and dispute resolution process	1-04.5
Clay Pipe	7-17.3, 9-05.4
Cleanup	
roadside and final	1-04.11
quarry and pit sites	3-01.2(1)E
Cleaning existing drainage structures	7-07
Clear plastic covering, erosion control	8-01.3(8), 9-14.5(4)
Clearances with utilities	1-07.17(2)
Clearing and grubbing.....	2-01
Clearing, site for structures	6-01.3
Coal tar pitch emulsion	9-02.1(9)
Coatings, water main	7-11, 9-30.1(6)
Cofferdams	2-09.3(3)
Cold weather work/unfavorable weather - see "Weather limitations"	
Collusion	1-02.8
Coloring agent for concrete sidewalk	8-14.2, 9-23.10
Compacting	
asphalt, hot mix	5-04.3(9)
asphalt treated base (ATB).....	4-06.3(7)
ballasting and surfacing	4-04.3(5)
backfill, culvert	7-02.3(3), 2-10
backfill, sewer & drainage structures	7-05.3, 2-10
backfill, electrical conduit	8-33.3(1), 2-10
backfill, flow control structure	7-16.3(1), 2-10
backfill, sewer and drainage	7-17.3(3), 2-10
backfill, water main	7-11, 2-10
earth embankments	2-04
full depth asphalt pavement recycling	4-05.3(2)C
full depth pavement reclamation	4-07.3(2)D
lawn installation	8-02.3(14)
planting area preparation	8-02.3(4)
rock embankments	2-04
structure excavations	2-04
subgrade , pavements	2-06
Compaction control tests	2-11
Completion, contract	1-05.12
Completion, time for	1-08.5
also see agreement form in the project manual	
Compost	9-14.4(8)
Concrete - see "Concrete structures" or "Pavement, cement concrete"	
Concrete barrier	6-10
Concrete brick	
sewer & drainage structures	9-12.6

Proposed 2014 edition City of Seattle Standard Specifications For Road, Bridge, and Municipal Construction

valve chambers	9-30.3(12)C
Concrete, cement – see "Cement"	
Concrete curing materials and admixtures	9-23
Concrete driveway	8-19
Concrete in contact with aluminum pipe, treatment	7-02.3(1)C3b
Concrete pipe, sewer and storm drain	9-05
permeability test	9-05.1(2)A
three edge bearing test	9-05.1(2)A
Concrete slope protection	8-16
Concrete structures	6-02
admixtures	6-02.3(2), 9-23
bonding new concrete to existing	6-02.3(34)A2
class concrete	6-02.3(1)
compression seal	6-02.3(13)
concrete placing requirements	6-02.3(5)
construction joint	6-02.3(12)
crack, epoxy injection of	6-02.3(33)
curing	6-02.3 (11)
curing materials	9-23
drilling holes in	6-02.3(30)
expansion joint	6-02.3(13)
exposed to alkaline soils or water	6-02.3(7)
exposed to seawater	6-02.3(6)
finishing surfaces (Class finish)	6-02.3(14)
formwork and falsework	6-02.3(17)
precast panels	6-02.3(28)
prestressed girders	6-02.3(25), 9-19
proportioning materials	6-02.3(2)
rate of placing, concrete pressure	6-02.3(17)K
repair of spalled and delaminated	6-02.3(32)
roadway slabs	6-02.3(10)
vibration	6-02.3(8)
weather and temperature limits to protect	6-02.3(5)C
Conduit and trenching, electrical	8-33
risers	8-33.3(3)
jacking or boring	8-33.3(5)
rigid steel	9-34.2
PVC	9-34.3
Conformity with and deviations from drawings and stakes	1-05.4
Connection, catch basin, inlet and drop	7-08
Construction joint, concrete structures	6-02.3(12)
Construction Stormwater and Erosion Control Plan.....	8-01
Construction notification requirements	1-07.28
Construction stakes	1-05.5
Contaminant spill – notification requirement	1-07.28
Contract	
assignment	1-08.2
award of	1-03.2
bond	1-03.4
change in	1-04.4
completion	1-05.12
coordination of documents	1-04.2
execution of	1-03.3
extension of time and delays	1-08.8
failure to execute	1-03.5
final inspection	1-05.11(2)
intent of	1-04.1
liquidated damages, overrun of contract time	1-08.9
physical completion	1-05.11(2)
subcontracting	1-08.1(3)
substantial completion	1-05.11(1)
termination	1-08.10
time (defined term)	1-01.3
working days, time for completion	1-08.5
Contract bond	1-03.4
Contraction joints	
concrete driveway	8-19.3(3)
concrete pavement	5-05.3(8)B
concrete sidewalk	8-14.3(6)
joint sealants for sawed	9-04.2(1)
Contractor	
compliance with law	1-07
construction activities, notification requirements	1-07.28
cooperation with other contractors	1-05.14
defective work and unauthorized work	1-05.7
examination of bid documents and project site	1-02.4
patented devices, materials, and processes	1-07.20

Proposed 2014 edition City of Seattle Standard Specifications For Road, Bridge, and Municipal Construction

load limits	1-07.7
prevailing wages	1-07.9
responsibility for work and damage	1-07.13
submittals	1-05.3, 1-08.3
Contractor performance evaluation program	1-05.13(2)
Controlled blasting (see special provisions in the project manual)	
Controlled density fill (CDF)	
CDF pipe bedding	7-17, 2-10
CDF structural bedding	2-10
CDF trench backfill	7-17, 2-10
see "Cement, slurry" for filling abandoned pipe and for filling annular space between 2 pipes	
Control of materials	1-06
Control of work	1-05
Controller	
irrigation, automatic	9-15.4
irrigation, electrical wire	9-15.6
irrigation, flushing & testing	8-03.3(9)
irrigation, installation	8-03.3(7)
traffic signal, assembly	8-31.3(2)
traffic signal, assembly testing	8-31.1(5)
traffic signal, intersection check-out & turn-on procedures	8-31.3(1)
traffic signal, check-out procedure	8-31.3(15)
traffic signal, detector loops to	9-32.6
traffic signal, final inspection & as-built drawings	8-31.3(17)
traffic signal, foundations	8-32.3(2)B
traffic signal, turn-on / cut-over procedure	8-31.3(16)
Coordination of contract components	1-04.2
Copper seals	9-06.13
Corrosion protection, water main	
coating for bolts and shackle rods	9-30.15
couplings	9-30.2(7)
electrolysis test station	9-30.12
pipe coatings	9-30.1(6)
Corrosion resistant material	
aluminum poles	9-33.3
ground rods, clamps, and hardware, electrical	9-31.7
pedestrian signal heads, case	9-32.4(3)
water main fittings, bolts and nuts	9-30.2(7)
Corrugated	
drain installation	7-01.3
flow control systems, limitations	7-16.2
sewer and drainage piping	9-05
cut-in tee to pipe connection	7-17.3(2)C3
Counter, batch, concrete	5-05.3(3)
Cover, depth of	
electrical & signal conduit	8-33.3(1)
watermain, distribution	7-11
Crack repair, concrete structure	6-02.3(33)
Crack sealing, asphalt	5-04.3(4)D
Cribbing, gabion	6-09, 9-27
Critical path schedule	1-08.3(1)
Crushed surfacing	4-04, 9-03.9
Cultivation, landscaping	8-02.3
Culverts	7-07
Curb	
cement concrete	8-04
extruded, asphalt & cement concrete	8-06
placed with concrete sidewalk	8-14
precast, traffic & block	8-07
Curb wall	5-05.3(23)D
Curing	
concrete curb	8-04.3(1)E
concrete driveway	8-19.3(4)
concrete extruded curb	8-06.3(6)
concrete manhole	7-05.3(1)D2
concrete pavement	5-05.3(13)
concrete piles	6-05.3(3)D
concrete precast panels	6-02.3(28)D
concrete prestressed girders	6-02.3(25)E
concrete sidewalks	8-14.3(5)
concrete slope protection	8-16.3(3) and (4)
concrete stairways, landing, and steps	8-18.3(5)
concrete structures	6-02.3(11)
concrete structures, removal of falsework and forms	6-02.3(17)O
curing materials	9-23
full depth pavement reclamation	4-07.3(2)D
traffic curb, precast & block	9-18.1(6)

Proposed 2014 edition City of Seattle Standard Specifications For Road, Bridge, and Municipal Construction

D

Damage, contractor responsible for work and	1-07.13
Damages, liquidated	1-08.9
Date numerals, for concrete structures	6-02.3(15)
Dates	
landscape planting	8-02.3(6)A
contract, various, defined terms	1-01.3
Decomposed organic mulch amendment	9-14.4(5)
Defective work and unauthorized work	1-05.7
Definitions and tests, materials	9-00
Delaminated and spalled structural concrete, repair	6-02.3(32)
Delays, contract time	1-08.8
Deleted or terminated work	1-09.5
Delineator posts, flexible	8-10
Density,	
ATB	4-06.3(7)
asphalt, hot mix	5-04.3(9)
compaction control tests, soils	2-03.3(14)E
full depth asphalt pavement recycling	4-05.3(2)C
full depth pavement reclamation	4-07.3(2)D
trench backfill, sewer / drainage & related structure excavation	7-17.3
trench backfill, water main & related structure excavation	7-11
Detectable marking tape, irrigation system	8-03.3(1), 9-15.11
Detectable warning, wheelchair ramp	9-36
Detector loops	8-31.3(5), 9-32.6
Detention pipe	7-16.3(3)
Detention storage – see "Flow control structures"	
Dewatering	
casing for cast-in-place concrete piles	6-05.3(15)B
concrete seals & foundations	6-02.3(5)E
sewer & drainage pipe excavation	2-08
sewer & drainage structure excavation	2-08
structure excavation	2-08
water main excavation	2-08
water main excavation, during water main pipe installation	2-08
Differing site conditions	1-04.7
Directional Drilling	2-16
Disputes and Claims Resolution Process.....	1-04.5
Disposal of waste – see "Waste management"	
Disqualification of bidders	1-02.14
Ditch and Channel Excavation	2-10
Ditches, roadway and embankments.....	2-04
Dowel bars	
concrete pavement	5-05.3(10), 9-07.5
curb construction	8-04.3(1)C
timber structures	6-04.3(5)
Downspouts, concrete structures	6-02.3(29)
Drainage	
of box girder cells	6-02.3(21)
of substructure	6-02.3(22)
underground, geotextile	2-12.3(2)
Drains	
bridge, construction of	6-02.3(36)
bridge, maintenance of	6-01.16
storm - see "Storm drain and sanitary sewer"	
subsurface	7-01
Driveway	
asphalt concrete	5-04.3(21)
cement concrete	8-19
Drop connections, inside and outside	7-08.3(6)
Ductile iron castings	9-06.14
Dust ratio	
definition	9-00.5
of mineral aggregate types	9-03

E

Earth embankments	2-03.3(14)
Ecology block, concrete	Standard Plan no. 460
Edging	
cedar, landscape construction	8-02.3(18)
cedar material	9-14.11
paver restraint block construction	8-02.3(18)B
paver restraint block material	9-14.9(14)
Elastomeric bearing pads	6-02.3(19)A, 9-35
Elastomeric expansion joint seal, concrete pavement	9-04.1(4)
Electrical, applicable codes	8-30.1(2)

Proposed 2014 edition City of Seattle Standard Specifications For Road, Bridge, and Municipal Construction

Electrical, on-site lead	1-01.3, 1-05.5(2)
Electrical safety observer	
authority of	1-05.2(2)
construction notification requirement	1-07.28
Electrical wire, irrigation system	9-15.6
Electrical wire and controller installation, irrigation system	8-03.3(7)
Electrical vaults – construction notification requirement	1-07.28
Embankments	
construction of	2-04
stepped slope construction	2-04
Engineer	
authority of	1-05.1
Entry onto private property – see "Private property"	
Epoxy Resins	9-26
anchoring bars and rods to concrete	6-02.3(31)
material properties	9-26
patching, coated rebar for structural concrete	6-02.3(24)I
structural concrete crack repair	6-02.3(33)
Equal Employment Opportunity and non-discrimination requirements	1-07.11
Equipment	
contractor's machinery and	1-05.9
superintendent, labor, and	1-05.13
weighing	1-09.2
Erosion and water pollution control, temporary	1-07.15
Erosion Control	8-01
Erosion Control, materials	9-14
Erosion control lead	1-01.3, 1-05.13(3)
Error, claim of, bid	1-03.1(3)
Estimates	
material on hand, progress payment for	1-09.8
payment for progress estimate.....	1-09.9(1)
Ethafoam (plastic foam)	9-05.10
Examination of bid documents and project site	1-02.4
Excavation	
classification – common, unsuitable foundation, solid rock	2-04
ditch and channel	2-10
roadway	2-04
safety systems, trench	2-07
stripping pits and quarries	3-01
structure	2-04
trench, sewer and drainage	7-17.3
trench, water main	7-11
Execution of contract	1-03.3
Expansion joint filler and sealer	9-04.1, 9-04.2
concrete bridge roadway slabs	6-02.3(13)
concrete pavement	5-05.3(8)C1
material, concrete pavement	9-04.1(2)
material, structural concrete	6-01.14
Expansion bearings	
concrete structures	6-02.3(19)B
steel structures	6-03.3(37)
Explosives, use of	1-07.22
Extension of contract time	1-08.8
Execution of contract	1-03.3
Execution of contract, failure to	1-03.5
Eyebars, steel	6-03.3(22)

F

Fabric, waterproofing	6-08
Falsework and formwork	
concrete structure construction	6-02.3(17)
steel structure construction	6-03.3(12)
Fence	
chain link and wire, construction	8-12
materials	9-16
Fertile mulch amendment	9-14.4(4)
Fertilizer	
application, landscaping	8-02.3(8)B
material specifications	9-14.3(1)
Festoon outlet	9-33.2(5)
Field applied coatings for water main, wax coating	7-11.3(8), 9-30.1(6)F
Field office for engineer's staff - see Section 1-07.29 of the project manual	
Field tests	
backfill compaction control	2-10, 2-11
bolted connections, steel structures	6-03.3(33)
concrete pavement smoothness	5-05.3(12)
flow control systems	7-16.3

Proposed 2014 edition City of Seattle Standard Specifications For Road, Bridge, and Municipal Construction

gabion unit weight	6-09.3(6)F
illumination and electrical	8-30.3(9)
irrigation system	8-03.3(9)
piles	6-05.3(10)
sewer and storm drain	7-17.3(4)
traffic signal system	8-31.3(15)
water main, final flush and	7-11.3(12)L
water main, hydrostatic pressure	7-11.3(11)
water main, taste and odor	7-11.2(2), 7-11.2(3)
welding rebar	6-02.3(24)F
welds, structural steel	6-03.3(25)B
Filter blanket for riprap	8-15.3(7)
Filter fabric – see "Geotextile"	
Filter material behind rock facing	8-08.3(1)E
Final cleanup	
roadside and	1-04.11
quarry and pit site reclamation	3-01.2(1)E
structures	6-01.12
Final inspection	1-05.11
Final payment for contract	1-09.9(4)
Finishes, concrete structure surfaces, classes 1, 2, and 3	6-02.3(14)
Finishing	
asphalt treated base (ATB)	4-06.3(6)
bridge roadway slabs	6-02.3(10)
cement concrete pavement	5-05.3(11)
concrete curb	8-04.3(1)D
concrete driveway	8-19.3(3)
concrete piles	6-05.3(3)C
concrete sidewalk	8-14.3(4)
concrete stairways, landings, and steps	8-18.3(5)
concrete traffic and pedestrian barrier	6-02.3(11)B
hot mix asphalt concrete pavement	5-04.3(8)
monolithic curb and sidewalk	8-14.3(11)
precast concrete panels	6-02.3(28)F
prestressed concrete girders	6-02.3(25)I
steel structural member edge finishing	6-03.3(14)
steel structural members	6-03.3(11)
Flexible guide posts	9-17
Flexible delineator posts	8-10
Floor, timber	
laminated	6-04.3(15)

culvert, concrete	7-02.3(1)B2
ductile iron sewer and storm drain	9-05.2
manhole, precast	7-05.3(1)K, 9-12.4(1)
material specifications	9-04.4
pedestrian push button assembly	9-32.5
water main, insulating couplings	9-30.2(7)A
water main, non-restrained ductile iron pipe	9-30.1(1)

S

Safety observer, electrical – see "Electrical safety observer"	
Safety Rules and Standards	1-07.1(2)
Safety systems for trench excavation	2-07
Safety watch, construction in electrical vault – see "Electrical safety observer"	
Sales tax, state	1-07.2
Salvage of usable materials	2-02.3(7)
Samples and sampling of materials	
acceptance	1-06.2
inspection of work and material	1-05.6
Sand drainage blanket	2-03.3(14)I, 9-03.13(2)
Sand/silt ratio	9-00.6
Sanitation, contractor requirements	1-07.4
Sanitary sewer spill, notification requirement	1-07.28
Sanitary sewers - see "Storm drain and sanitary sewer"	
Sawcutting, planing, and grinding byproducts, pollution control	1-07.5(2)
Sawing and line drilling	2-02.3(6)
Scales, weighing equipment	1-09.2
Schedule, critical path	1-08.3(1)
Scope of payment	1-09.3

Proposed 2014 edition City of Seattle Standard Specifications For Road, Bridge, and Municipal Construction

Scope of work	1-04
Screw threads, standard	6-03.3(26)
Seal, foundation, placing concrete in	6-02.3(6)C
Seals, copper	9-06.13
Seeding	
dates to seed	8-02.3(14)A
erosion control	8-01.3(5)
lawn installation	8-02.3(14)
Selected material	2-10
Service connection transfers, water	7-15
Sewer cleanouts	7-19
Sewer, sanitary spill - notification requirement	1-07.28
Sewers, sanitary and combined - see "Storm drain and sanitary sewer"	
Shear	
allowable stresses in formwork and falsework	6-02.3(17)C
boards, erosion control	8-01.3(12), 9-14.8
connectors, welded	9-06.15
hydrant shear block	9-14.3(1)
keys at concrete construction joints	6-02.3(12)
Shop drawings	
defined term	1-01.3
general submittal requirements	1-05.3(10)
Shoring and cofferdams, structure excavation	2-04, 2-08
Shoulder, ballast	4-04.3(11), 9-03.9(2)
Shutdown of water main or service - construction notification requirement	1-07.28
Side sewers	7-18
Sidewalk, close or restrict access during construction – notification requirement	1-07.28
Sidewalks, cement concrete	8-14
Sieve analysis for aggregate, methods	9-03.15
Sign, overhead interior illuminated	8-31.3(6), 9-32.7
Sign posts, timber	9-28.2(1)
Signal controller - see "Traffic signal controller"	
Signal system, traffic – construction requirements	8-31
Signal system, traffic – material requirements	9-32
Signs and posts, street and traffic	8-21, 9-28
Site conditions, differing	1-04.7
Site, examination of bid documents and	1-02.4
Site reclamation – quarry, pit	3-03
Slag, see "pozzolan"	
Sleeve	
for irrigation pipe	9-15.3
for parking meter post	9-28.2(2)
for water main – ductile iron pipe fittings	9-30.2(1)
for water main – heat shrink joint	9-30.1(6)E
for water main – insulating flange kits	9-30.2(7)B
for water main – joint bond cable	9-30.10
for water main – thermite weld adapter	9-30.11(2)
Slope protection	
concrete	8-16
wire mesh	8-29
Slump test	
pavement concrete consistency	5-05.3(2)
structure concrete consistency	6-02.3(4)
Smoothness	
asphalt concrete pavement surface	5-04.3(12)
concrete pavement surface	5-05.3(12)
Soils.....	9-14.1
Source of supply and quality of materials	1-06.1
Specifications, coordination with contract	1-04.2
Spill prevention and control	1-07.5(5)
Stairway, cement concrete	8-18
Stakes, construction	1-05.5
State sales tax	1-07.2
Steel structures	
construction requirements	6-03
materials	9-06
Steel reinforcing bar ("rebar")	9-07
Stepped slope construction	2-04
Steps, cement concrete	8-18
Steps, handholds & ladders for sewer & drainage structures	7-05.3(1)Q, 9-12.2
Storm drain and sanitary sewer pipe construction requirements	7-17
Storm drain and sanitary sewer – pipe materials	
pipe gaskets – flexible plastic	9-04.5
pipe gaskets - rubber	9-04.4
pipe materials	9-05
Street Rules – see Street and sidewalk pavement opening and restoration rules	
Structural backfill, Controlled density fill (CDF) – see controlled density fill	

Proposed 2014 edition City of Seattle Standard Specifications For Road, Bridge, and Municipal Construction

Structural plate pipe, pipe arch, arch, and underpass	7-03
Structural steel and related materials	9-06
Structure excavation	2-09
Structures - general requirements	6-01
Subcontracting requirements	1-08.1(3)
Subcontractor / bidder list	1-02.9(3)
Subcontractors, prompt payment to materialmen and	1-09.14
Subgrade preparation	2-09
Submittal, bid	1-02.9
Submittal requirements	1-05.3
Submittals, contractor required	1-05.3
Subsealing	5-01
Substantial completion date	1-05.11(1)
Substantial completion (defined term)	1-01.3
Substitution	
"or equal"	1-06.1
shop drawings requirements	1-05.3(2)
structural steel sections	6-03.3(8)
Subsurface information	1-02.4(2)
Subsurface drain	7-01
Suitable material	2-10
Superintendents, labor, and equipment, contractor	1-05.13
Supplemental contract (defined term)	1-01.3
Support system, trench excavation	2-07
Support wall and edge wall	5-05.3(23)C
Surfacing, ballasting and crushed	4-04
Surplus material, disposal	2-04
Survey, construction stakes	1-05.5
Suspension of work	1-08.6

T

Tack coat, asphalt paving	5-04.3(4)C2
Taste and odor testing for water mains	7-11.2(2), 7-11.2(3)
Tax, state sales	1-07.2
Tee, cut-in on existing or new sewer/drainage pipe	7-17.3(2)C3
Television Inspection	7-17.3(4)I
Temperature, normal for bridge drawing dimensions.....	6-01.15
Temporary concrete barrier	
construction requirement	6-10.3(5)
for traffic control	1-07.23(1)
Temporary erosion and sediment control	1-07.15, 8-01
Temporary traffic control	1-07.23, 1-10
Temporary water service connection	7-10.3(6)
Temporary water pollution/erosion control	1-07.15
Terminated or deleted work	1-09.5
Termination of contract	1-08.10
Test piles	6-05.3 (10)
Thermoplastic powder coating for water main	9-30.1(6)C
Three edge bearing test, concrete pipe	9-05.1(2)A
Tie bars, pavement	5-05.3(10), 9-07.6
Timber and lumber materials.....	9-09
Timber structures	6-04
Time, contract	
defined term	1-01.3
extensions and delays	1-08.8
for completion	1-08.5
Time to execute agreement form	1-03.3(2)
Topsoil and playfield soil	8-01.3(2), 9-14.1
Traffic buttons and lane markers	8-08, 9-21
Traffic control during construction	1-07.23, 1-10
Traffic control for traffic signal construction	8-31.3(1)A
Traffic curb, precast and block	8-07, 9-18
Traffic signal controller assembly	8-31.3(2)
Traffic signals - see "Signal system, traffic"	
Traps, outlet	9-12.12
Treated timber, preservative treatment	9-09.3
Treatment, protective - aluminum pipe in contact with portland cement concrete	7-02.3(1)C3b
Tree, relocate	8-02.3(22)
Tree root pruning and excavation	8-02.3(23)
Tree trimming and overhead wires – notification requirement	1-07.28
Trench backfill, controlled density fill (CDF) – see Controlled density fill	
Trench excavation, sewer and storm drain	
pipe connections, catch basin & inlet	7-08.3(1)
detention pipe	7-16.3(1)
general	2-04
protective system	7-17.3(1)A7
side sewer	7-18.3(2)

Proposed 2014 edition City of Seattle Standard Specifications For Road, Bridge, and Municipal Construction

storm drain & sewer	7-17.3(1)
Trench excavation, water main	6-10.3(5)
construction requirements	7-10.3(7)
protective system	7-10.3(7)G
safety system	7-10.3(7)G1
support system	7-10.3(7)G2
Trestle ends, embankment at bridge and	2-04
Trimming and Cleanup	2-14

U

Unauthorized work, removal of	1-05.6, 1-05.7
Unavoidable delay	1-08.6, 1-08.8
Uncovering work, payment for	1-05.6
Underground construction	7-17.3(2)J
Underground utility clearances - see "Clearances with utilities"	
Underground utilities locate (one call locate) – notification requirement	1-07.28
Underpass, drainage	7-03
Underweighing / overweighing & pay adjustment	1-09.2(5)
Unfinished cement concrete pavement	5-05.3(20)
Urethane paint, moisture-cured	6-07.3(7), 9-08.2 item 18.
Usable materials, salvage of	2-02.3(7)
Use of buildings or other structures	1-04.9
Use of explosives	1-07.22
Use of materials found on the project site	1-04.10
Utilities and similar facilities	1-07.17
required clearances	1-07.17(2)
Utilities notifications requirements for various types constructions	1-07.28

V

Valves for irrigation	9-15.7
Valves for water mains	7-12, 9-30.3
Vault, electrical & electrical safety observer, notification requirement	1-05.5(2), 1-07.28
Vertical drains, prefabricated	2-04
Vibratory rollers	5-04.3(3)C
Vitrified clay pipe	9-05.4

W

Wage rates, prevailing	1-07.9(1)
Wages	1-07.9
Wall	
concrete slab wall	8-15.3(5)
curb wall, edge wall, and support wall	8-17
head wall	7-03.3(5)
retaining wall for fire hydrants	7-14.3(9)
Warranty and guaranty	1-05.10
Waste management	7-03
Wasting excavated material	1-07.3
Watch, electrical safety – see "Electrical safety observer"	
Water	
for irrigation	9-25.2
for pavement concrete	5-05.3(5), 9-25.1
for structural concrete	6-02.3(4), 9-25.1
Water main and related - construction requirements	
clearances with other utilities	1-07.17(2)A
coatings	9-30.1(6)
excavation, bedding, backfill	7-10
hydrants	7-14
materials	9-30
pipe installation, pressure and taste testing, connections, electrolysis monitoring	7-11
salvage of removed water main and related materials	2-02.3(7)B
trench excavation, bedding, and backfill	7-10
valves	7-12
Water quality, environmental construction requirements	1-07.5(2)
Water pollution / erosion control, temporary construction controls	8-01, 1-07.15
Water valves	9-30.3
Watering as part of various constructions	2-07
Waterproofing	6-08, 9-11
Waterstop, plastic	9-24
Wave equation analysis, piling	6-05.3
Wax coating, water main	9-30.1(6)F
Weather limitations	
bituminous surface treatment	5-02.3(10)
concrete pavement construction	5-05.3(14)
placing structural concrete	6-02.3(6)B
suspension of work	1-08.6
Weep holes	

Proposed 2014 edition City of Seattle Standard Specifications For Road, Bridge, and Municipal Construction

concrete slab riprap	8-15.3(5)
concrete structures	6-02.3(22)
Weighing equipment	1-09.2
Welds	
reinforcing steel	6-02.3(24)F
structural steel	6-03.3(25)
Wheelchair ramps (curb ramps)	8-14.3(7)
Wheel guards and railings, timber	6-04.3(13), 6-06.3(1)
Wire, cold drawn for reinforcing	9-07.9
Wire fence	8-12, 9-16.2
Wire mesh slope protection	8-29
Wiring, fusing and splicing, electrical	8-30.3(5), 9-31.5-6
Withdrawal or modification of bid	1-02.10
Work	
changes	1-04.4
completion	1-05.12
contractor's responsibility for damage and	1-07.13
defective and unauthorized	1-05.7
delays, time extensions and entitlement & compensation	1-08.8
differing site conditions	1-04.7
force account payment	1-09.6
increased or decreased quantities	1-04.6
inspection of	1-05.6
samples and sampling	1-06.2
suspension	1-08.6
time for completion	1-08.5
Workers benefits - see "Insurance"	
Working hours	1-08.1(4)
Written notice (defined term)	1-01.3
Written notice, method of serving	1-05.15

X, Y, Z (none)
